MEHUL ANDANI

FRONT-END DEVELOPER

Surat, Gujarat, India - 394101 | mehulandani7@gmail.com | in Linkedin | 🌐 Website

SUMMARY

Experienced React and React Native Developer with over 3.5+ years of expertise in designing and delivering innovative web and mobile applications. Skilled in collaborating with cross-functional teams to efficiently achieve project goals. Proven track record of writing clean, high-quality code and delivering scalable, performance-driven solutions within tight deadlines. Proficient in React, React Native, JavaScript, and end-to-end application development. Dedicated to continuous learning and staying updated with the latest technologies and industry trends to ensure optimal project outcomes.

TECHNICAL SKILLS

React & React Native (CLI, Expo, Web)	X-Code, Android Studio
JavaScript (ES6+), JSX	Rest APIs Integration
React Hooks, Props, Context API	Video Call & Voice Call Integration
React Router, React Query	Payment Integration
Redux Thunk / Redux Toolkit	Message (Chat)
State Management	Open-AI Integration
Responsive UI Implementation	Push Notification
Data Structures & Algorithms	Third-Party Library Integration
Typescript (Basic to Intermediate)	Firebase (FireStore, Realtime Database)
	Expo Libraries

PROFESSIONAL EXPERIENCE

WP Evenet Manager   **Mar 2024 - Sep 2025**

- WP Event Manager is a lightweight, scalable, and full-featured WordPress plugin that enables easy creation and management of event listings and registrations.
- Working as a Frontend Developer, I specialize in building and enhancing dynamic web and mobile application features that integrate seamlessly with the WP Event Manager platform.

Wordex InfoTech   **May 2023 - Mar 2024**

- Wordex Infotech is a mobile and web app development company specializing in delivering tailored digital solutions to diverse clients. As a Front End Developer at Wordex Infotech.
- I developed and maintained high-quality web and mobile applications for both iOS and Android platforms, ensuring scalability, performance, and user-centric design to meet client needs and project requirements.

SRKAY Consulting Group   **Jan 2022 - May 2023**

- SRKAY Consulting Group manages IT products and solutions for SRKAY, which is India's largest diamond manufacturing company.
- As a React Native and Frontend Developer at SRKAY Consulting Group, I was responsible for designing, developing, and maintaining mobile and web applications using React and React Native to support SRKAY — India's largest diamond manufacturing company — in achieving its strategic business and technology initiatives.

PROJECTS

1. Event Manager App - WP Event Manager (Frontend Developer)

Description:-
- A web and mobile application that streamlines event management with features like attendee check-ins, QR code scanning, real-time tracking, offline support, customizable themes, and multi-language options. Developed using React for the web platform and React Native for mobile, it provides a unified, responsive experience enabling organizers to manage events efficiently across devices.

Responsibilities:
- Developed cross-platform event management application using React and React Native for web and mobile platforms.
- Implemented QR code scanning and real-time updates for event tracking using WebSocket and React hooks.
- Built responsive, accessible web interfaces with React, ensuring seamless performance across browsers and devices.
- Integrated offline data synchronization, multilingual support, and adaptive layouts for enhanced user experience.
- Optimized rendering and component lifecycle management in React to improve load time and UI responsiveness.

Technologies used:
- React, React Native, Redux Toolkit, Firebase, REST APIs, QR Code Scanner

2. Hire Tech Talent – WP Event Manager (Frontend Developer)

Description:-
- A cross-platform recruitment app designed to simplify hiring by connecting employers with tech talent through job postings, candidate search, and in-app communication. Developed using React Native for mobile and React for the web to provide a seamless experience across devices.

Responsibilities:
- Built with React for the web and React Native for mobile to ensure a unified, responsive experience.
- Developed job posting, candidate search, and messaging modules for seamless recruitment.
- Enhanced performance and scalability for large user bases.
- Ensured a responsive UI for smooth user interactions across devices.

Technologies used:
- React, React Native, Redux, Firebase Realtime Database, Push Notifications

3. Project Name: FoodMato Restaurant Partner – WP Event Manage(Frontend Developer)

Description:-
- Developed a full-featured restaurant management system for cafes, bars, and food trucks, utilizing React for the web platform and React Native for mobile. The app enables online order management, delivery tracking, table reservations, and order printing, delivering a unified experience across devices.

Responsibilities:
- Implemented order and reservation features with React and React Native.
- Integrated coupon and user management modules.
- Developed order printing functionality with backend APIs.
- Built responsive web interface for restaurant staff and customers.
-

Technologies used:
- React for web, React Native, Firebase Firestore, Payment Gateway, REST APIs

4. Project Name: XtendedSpace – Wordex InfoTech (React Native Developer)

Description:-
* A property rental application for businesses and housing purposes with property listing, searching, and integrated Razorpay payment system.

Responsibilities:
* Developed property listing and search functionalities.
* Integrated Razorpay for secure billing and payments.
* Optimized performance for smooth user experience.

Technologies used:
* React,React Native Expo, React native for web, Redux Thunk, Razorpay, REST APIs,

5. Project Name: HCIS (Human Capital Information System) – SRKAY Consulting Group

Description:-
* A mobile HR system where employees can access announcements, surveys, feedback forms, and communications from management and team leads.

Responsibilities:
* Developed survey, feedback, and announcement modules.
* Integrated push notifications for employee updates.
* Ensured secure handling of employee data with Firebase

Technologies used:
* React,React Native, Firebase Realtime Database, Push Notifications, REST API

6. Project Name: SRK Pure – SRKAY Consulting Group

Description:-
* A comprehensive platform for managing diamond inventory, grading, and sales processes, enabling efficient tracking, valuation, and streamlined transactions from stock to client delivery.

Responsibilities:
* Built dynamic pricing algorithms that calculate stone prices based on grading parameters and market indexes, improving accuracy and consistency of valuations.
* Developed real-time dashboards and reports for stock levels, grading status, and pricing trends using React, React Native, and WebSocket for instant data updates and faster performance.
* Designed interactive UI components and optimized rendering workflows in React to provide a seamless user experience across web and mobile platforms.
* Integrated role-based access control for graders, supervisors, and admins to securely manage inventory and reports.
* Implemented indexing strategies and query tuning in SQL Server to reduce execution time by 25% and handle large data sets efficiently.

Technologies used:
* React, React Native, Firebase Realtime Database, Push Notifications, REST API

EDUCATION   JUN 2018- MAY 2022

Bachelor of Engineering in Computer Science
* R. N. G. Patel Institute Of Technology - Bardoli, Gujarat - 394350
* CGPA:- 8.15
